About us

International Soorya Solar Power Corporation LLP is one of the pioneers in the photovoltaic solar power indutsry that provides sustainable energy solutions to a greener and heathier India. 'Soorya' has acquired the abiltiy to implement solar power project on small and large scales. We have 17 years of experience and a client base of 13579 more in Kerala especially in Malappuram, Calicut, Thrissur, Cochin, Trivandrum and Palakkad. From the idea to realization with an atmost understanding of customer requirements and customized solutions. We achieved by continuous technological innovations, rich expertise and a customer cetnric approach. Under the supervision and advice of the steering committee, who has been working in the energy sector in the Govt: it is possible to provide products that are suitable for the customer and maintain seamlessly. As the result, we received the RBC Social Media Award for Best emerging Solar Brand in Kerala, and Kerala Kaumudi Newspaper's Kerala Top Solar Brand Award from the Electricity Minister. The only solar company in Kerala that personally calls all customers who have installed the system every month to ensure that the solar system is working. Through this kind of customer service, we have been able to create customers and maintain them with zero compliance
